Encl: (1) Table of MARES Reportable Equipment  
(2) Summary of Additions and Deletions to the Table of MARES Reportable Equipment  
(3) Table of Functional Area Codes and Weapon System Management Points of Contact

1. Purpose. To publish FY08 MCBul 3000.

2. Effective Date. 24 May 08.

3. Summary of revision. In an attempt to accurately capture the readiness of Marine Corps units, input for the FY08 MCBul 3000 was received from the Marine Forces (MarFors), Supporting Commands (Marine Corps Combat Development Command (MCCDC), Combat Development and Integration, (CD&I), Marine Corps Logistics Command (MCLC), Marine Corps Systems Command (MCSC)), as well as the Operational Advocacy Groups (OAG's). This year's MCBUL 3000 was reduced from two hundred fifty-six (256) items, with forty-nine (49) Mission Essential Equipment (MEE) items, to one hundred sixteen (116) items, with fifty-one (51) MEE items. The number of Principle End Items (PEI) was reduced for the FY08 MCBul by over fifty percent to better capture readiness of Marine Corps ground equipment deemed to be the most critical. There are one hundred forty (140) PEI's deleted and six (6) MEE deleted due to replacement, technological obsolescence and prioritization based on high demand, low density items. There are six (6) PEI and eight (8) MEE additions.

4. Background

a. References (a), (b), and (c) establish the criteria for reporting the level and condition of unit equipment. Reference (a) provides the procedures for nominating and reporting equipment as MARES Reportable. This Bulletin identifies the readiness reportable PEIs and MEEs selected for equipment status reporting within the Marine Corps in support of Status of Resources and Training System (SORTS).

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

b. Definitions:

- Principal End Items (PEI): "...[are those items that have been] nominated by the MarFor's, Supporting Commands (MCCDC CD&I), MCSC, MCLC). The items selected are of sufficient range to provide an adequate measure of overall equipment status or capability for MarFor's. To preclude gross distortions of the equipment status percentages, items whose serviceability/operational capability undergo frequent inspection or which can be readily replaced by the units first source of supply are not reportable (i.e. rifles, pistols, gas masks). Non-reparable items are also excluded from MARES reporting." [para 6.a.1-3, 7.a.1]
- Mission Essential Equipment (MEE): "are items of equipment whose availability is essential and indispensable for the execution of the mission essential tasks of the unit in support of a combatant commander. Final decision for MEE lies with the Joint Staff (J3). Items designated as MEE are of such importance that they are subject to continuous monitoring throughout DoD. MEE are a subgroup of PEI." [para 6.b.1-3, 7.a.1]

c. Enclosure (1) is the list of Readiness Reportable Equipment.

d. Enclosure (2) summarizes the equipment added, deleted, or changed since the last update to the table of MARES reportable equipment.

e. Enclosure (3) is a current table of Weapon System Management telephone numbers by Functional Area (FA), and Weapon System Codes (WSC). Commanding General, Marine Corps Logistics Command (CG, MCLC) and Commanding General, Marine Corps Systems Command (CG MCSC) use these codes to facilitate the life-cycle management of items contained in this Bulletin, and to assist with the management/evaluation of materiel readiness trends.

5. Action

a. All Marine units, to include active, reserve, LOGCOM, Blount Island Command, Maritime Prepositioning Ships (MPS), Marine Corps Prepositioning Program - Norway (MCPN), and Supporting Establishment, i.e., bases, posts, and stations, will report the status of ground equipment listed in enclosure (1) of this Bulletin.

b. All of the MARES equipment listed in Enclosure (1) will be tracked and reported within MIMMS and SASSY per Reference (a). Units identified by DC PP&O (POR) as SORTS reporting units will report this equipment per References (a) and (c).

c. Task-organized units/MAGTFs, i.e., MEUs, will use reporting procedures per References (a) and (c). Equipment that is listed as MEE for joining attachments will be reported by the MAGTF as MEE. For example, howitzers and MTRVs for an artillery battery and Light Armored Vehicles (LAVs) for an LAR Company are to be reported by the gaining MAGTF as MEE items.

d. Reserve units activated and joined to a like active unit will report per References (a) and (c). Equipment listed as MEE for the gaining active unit will be listed as MEE for the activated reserve unit.

(LAVs) for an LAR Company are to be reported by the gaining MAGTF as MEE items.

d. Reserve units activated and joined to a like active unit will report per references (a) and (c). Equipment listed as MEE for the gaining active unit will be listed as MEE for the activated reserve unit.

e. Units will update each deadlined or degraded Equipment Repair Order (ERO) using appropriate manuals.

f. DC I&L (LPC) will update the ID Standards File, as required or directed in Enclosures (1) and (2).

g. CG, MCCDC (Total Force Structure (TFS)) will update the readiness reportable flag indicators resident in the TFSMS Item Data File, as reflected in Enclosures (1) and (2).

h. CG, MCLC will provide DLA Weapon Item Data Transactions (WS1) to the appropriate DLA Defense Supply Centers as required, in support of any additions to Enclosure (1).

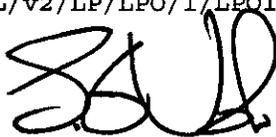

i. CG, MCLC will establish formal arrangements for the periodic validation and reconciliation of weapon systems applications files for DLA managed items.

j. CG, MCLC will ensure that a semi-annual review of Weapons System Support Codes is performed and that the current status of weapons systems is reflected in the DLA Weapons Systems Support Program Database.

k. CG, MCSC (C4IIS (PM ATLASS)) will ensure the next MAGTF Data Library (MDL) and ATLASS maintenance release reflect the proper readiness flag indicators and TAMCN allowances for the ATLASS Using Units.

6. Reserve Applicability. The MCBUL 3000 is applicable to Marine Forces Reserve.

7. Electronic copies of this Bulletin can be found on the Official Marine Corps Website under Publications (Orders and Directives), and on the Installations and Logistics, HQMC Website under the following URL: (<http://hqinet001.hqmc.usmc.mil/I&L/v2/LP/LPO/1/LEO1Home.htm>).
